

Regain your license in Florida

with a state certified ignition interlock

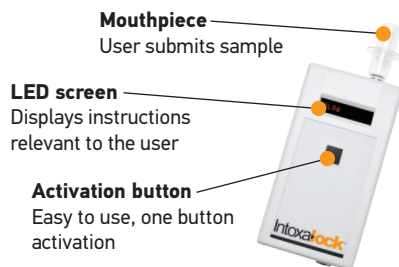

HOW CAN I GET MY LICENSE BACK?

If you are reading this brochure, it is likely that you or a loved one has been pulled over for Driving Under the Influence (DUI). Getting an ignition interlock device installed in your vehicle is an important step in regaining your license in Florida. This brochure will take you through all the necessary steps based on your offense and will assist you in getting back on the road quickly and legally.*

*State laws can change at any time. The information in this brochure is just a guideline. For the most up to date information, visit www.flhsmv.gov/ddl/dlfaqson2a.html#dui

WHAT IS AN IGNITION INTERLOCK?

An ignition interlock device integrates breath alcohol testing with your vehicle's ignition system. Prior to starting your vehicle, you will need to submit a breath sample into the hand held portion of the device that tests for the presence of alcohol. If your Breath Alcohol Concentration (BrAC) is below Florida's ignition interlock set limit (0.025), your vehicle will start. If alcohol is detected, your vehicle will not start until a passing sample has been provided.
