# Regain your license in Kentucky

*with a state certified ignition interlock*

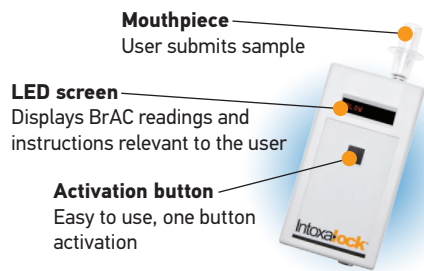

## HOW CAN I GET MY LICENSE BACK?

If you are reading this brochure, it is likely that you or a loved one has been pulled over for Driving Under the Influence (DUI). Getting an ignition interlock device installed in your vehicle is an important step in regaining your license in Kentucky. This brochure will take you through all the necessary steps based on your offense and will assist you in getting back on the road quickly and legally.\*

\*State laws can change at any time. The information in this brochure is to be used as a guideline. For the most up-to-date information, visit [transportation.ky.gov](http://transportation.ky.gov).

## WHAT IS AN IGNITION INTERLOCK?

An ignition interlock device (IID) integrates breath alcohol testing with your vehicle's ignition system. Prior to starting your vehicle, you will need to submit a breath sample into the hand held portion of the device that tests for the presence of alcohol. If your Breath Alcohol Concentration (BrAC) is below Kentucky's ignition interlock limit (0.02), your vehicle will start. If alcohol is detected, your vehicle will not start until a passing sample has been provided.

## IGNITION INTERLOCK REQUIREMENTS

### You must submit these items to the transportation cabinet prior to installing your ignition interlock:

- Application and processing fee
- Court order
- Proof of insurance and valid vehicle registration

Once you are approved to install your ignition interlock device, you will receive an approval letter from the Division of Driver License. At this point, you can call in and schedule your installation at a service center closest to you. You are required to have your ignition interlock device installed within 30 days of your court order.

**NOTE:** If you are installing an ignition interlock device in a vehicle you do not own, you will need to present a written notarized statement from the vehicle's owner at the time of installation.

### A BETTER WAY OF LIFE

Installing an ignition interlock will allow you to keep your job and your life the way it was before your DUI.

## CALIBRATIONS

The state of Kentucky requires that all ignition interlock devices be calibrated every 30 days. A calibration consists of exchanging your current device for a newly calibrated one, ensuring accurate and consistent testing.

### Easy calibrations

Intoxalock offers its customers a quick, easy calibration process in the state of Kentucky. When it is time for calibrations, the LED screen will display a message alerting you that it's time to exchange the device. You will be required to call in to Intoxalock and report your current mileage. Intoxalock will then send a new device to your selected service center. You simply need to visit your service center during the allotted calibration period and the technician can quickly exchange the device.

LAST YEAR, INTOXALOCK  
HELPED OVER 90,000 DRIVERS  
GET BACK ON THE ROAD SAFELY  
AND RESPONSIBLY.
