# Regain your license in New York

*with a state certified ignition interlock*

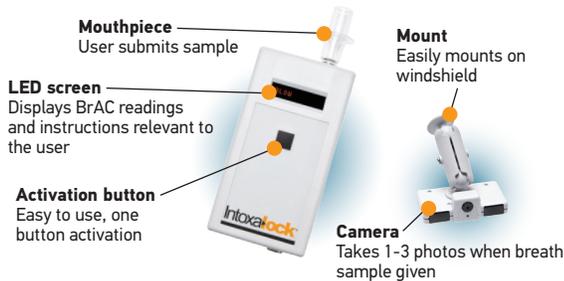

## HOW CAN I GET MY LICENSE BACK?

If you are reading this brochure, it is likely that you or a loved one has been pulled over for an alcohol or drug related driving offense. Getting an ignition interlock device (IID) installed in your vehicle may be an important step in regaining your license in New York State. This brochure will take you through the necessary steps and explain the requirements based on your offense. This brochure will assist you in getting back on the road quickly and legally.\*

\*State laws can change at any time. The information in this brochure is a guideline. For the most up to date information, visit [www.dmv.ny.gov/alcohol-drug.htm](http://www.dmv.ny.gov/alcohol-drug.htm)

## WHAT IS AN IGNITION INTERLOCK?

An ignition interlock device\* integrates breath alcohol testing with your vehicle's ignition system. Prior to starting your vehicle, you will need to submit a breath sample into the hand held portion of the device that tests for the presence of alcohol. If alcohol is detected, your vehicle will not start until a passing sample has been provided.

\*A camera is also a New York IID requirement.

## IGNITION INTERLOCK REQUIREMENTS

If you are convicted of a misdemeanor or felony drunk driving charge, including a first offense, you will be required to install and maintain an IID. If convicted of an Aggravated Driving While Intoxicated offense or any repeat alcohol or drug offense within five years, a judge is also required to order the installation of an IID during both the revocation and probation period that follows.

When an IID is ordered by a court, it must be installed on each vehicle you own and operate, and must remain installed for the duration of your IID order. The IID restriction will appear on the back of your driver license document as "interlock device." The restriction will be added to your driver license record even if your license is revoked.

## LEANDRA'S LAW

Leandra's Law includes two major components; one to toughen the penalties for driving impaired with children in the vehicle and one to require ignition interlocks for those convicted. Under Leandra's Law, courts are required to impose a period of probation or conditional discharge for anyone convicted of a felony or misdemeanor drunk driving offense. During that period, you will be required to install and maintain an ignition interlock device, for at least 12 months, in any motor vehicle you own or operate.

### Additional fees and requirements you may be subject to:

- Participation in New York State's Drinking Driver Program (DDP) or an approved out-of-state program
- Attend a Victim Impact Panel
- Pay a mandatory surcharge fee and a fee for assistance to crime victims
- For each of the next three years, you may also be required to pay a Driver Responsibility Assessment\* fee
- An alcohol assessment for certain repeat offenders

\*Required for certain violations that result in a conviction or administrative finding

### ABOUT INTOXALOCK

Intoxalock has been manufacturing ignition interlocks for over 20 years. We were the first company to use fuel cell technology and continue to be an industry leader in reliability, customer service and technology.

- Over 90,000 customers served annually
- Over 1,800 service centers nationwide
- 20 years of industry leadership

## IGNITION INTERLOCK PROCESS

1. Pay all fines, fees and court costs.
2. Make sure your vehicle is in working order, including horn, battery and all electrical systems. Make any repairs necessary prior to installing your IID.
3. If you want to install an IID in a vehicle that is not titled in your name, you will need a notarized affidavit from the vehicle's owner granting permission.
4. Gather the following information:
  - Condition of Discharge, Probation Order or DMV Problem Driver form. If you have been pre-sentenced, you will need a Pre-Sentence Order issued by the court
  - Copy of your photo ID and a list of all drivers who may drive the vehicle
  - The vehicle identification number and license plate number of your vehicle
  - Your insurance information
  - Your probation officer's or monitoring authority's information

WE PROUDLY MAINTAIN A 4 ½  
STAR CUSTOMER SATISFACTION  
RATING ON TRUSTPILOT.

## IGNITION INTERLOCK CLASSIFICATION

The New York State Division of Criminal Justice Services and Office of Probation and Correctional Alternatives (DCJS/OPCA) classifies all certified IIDs into categories based upon features of the devices.\*

Class I	Class II	Class III
Camera	Camera GPS Real-time	Camera GPS Real-time 911 Notification

\*Intoxalock devices meet all state class requirements.

LAST YEAR, INTOXALOCK  
HELPED OVER 90,000 DRIVERS  
GET BACK ON THE ROAD SAFELY  
AND RESPONSIBLY.

## CALIBRATIONS

The state of New York requires that all ignition interlock devices that report in real time be inspected every 30-60 days. Your first inspection will take place 30 days after your installation date, with following inspections occurring within 60 days of your prior visit. These inspections will coincide with your recalibration dates. The calibration process ensures that devices continue giving accurate BrAC readings when breath samples are submitted.

### Intoxalock quick exchange calibrations

Intoxalock offers its customers Quick Exchange calibrations in the state of New York. When it is time for calibration and inspection, the LED screen will display a message alerting you it is time to exchange devices. You will need to log in to My Account or call Intoxalock to have your new device sent to your selected service center. You simply need to visit your service center on your calibration date and the technician will exchange your device and ship the old device back to Intoxalock.

## CERTIFIED LOCATIONS
